

AccuMaster Pro Digital Level

The AccuMASTER Pro Digital Level has all the features most needed on a Digital Level. It has a bright green LED display and is certified to be water and dust resistant.

It provides accurate measurements and with its sturdy milled aluminum frame you know that no matter what you measure or manufacture, it will be plumbed, leveled or sloped as planned. It has a V-groove and magnets on its base for easy measurement of rounded and metal surfaces.

The display can be changed to show readings in degree, percent, or rise over run (pitch). A beeper can sound at 0° and 90° and the display flips over to always read "right-side-up".

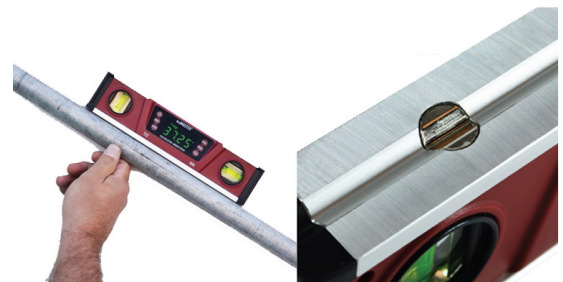

Easy access and operation with buttons including on/off, calibration, reference angle, hold, mode and sound.

- TRUE LEVEL - Displays the absolute angle of a work surface
- PITCH - Measure the angle of a roof in inches of rise per foot or in millimeter of rise per meter
- SLOPE - Measure an incline in percent or degree
- RELATIVE ANGLE MEASUREMENT - Compare the angle between two work surfaces

Great for Contractors/Builders, Carpenters, Plumbers, Remodelers, Electricians, Welders, Pipe Fitters, Cabinet and Window installers, DIY and so much more.

Specifications:

- Accuracy: $\pm 0.2^\circ$
- Resolution: $\pm 0.05^\circ$
- Measuring Range: 4x90°; 100%
- Operating Temperature Range: 0° - 40°C
- Battery DC 1.5 V (AAA x2)
- Estimated Battery Life: 40 hours in continuous use
- Digital Display of Angle: °(Degree), % (Slope), in/ft, mm/m (Pitch)
- Magnet: Magnets built into V-groove aluminum base
- Dimensions: 25,4 x 5,7 x 2,7 cm
- Weight: 330 grams with batteries
- IP Protection Class: IP54 certified - Water and dust resistant

Includes:

2 AAA Batteries, protective case, user's guide and 2-year warranty.
