

DWL90Pro – Dual Axis SMART CUBE Level

The DWL90Pro dual axis digital level allows for easy angle measurements to conduct surface plane levelling, tilt angle measurement, and 2D alignment tasks. The dual axis mode is ideal for levelling and measurements of the x and y axis simultaneously, near zero degrees. While the single axis mode gives you the ability to measure the full 360 degrees on one axis.

The strong built in magnet can firmly attach to metallic surfaces. It has a bright LED display and wireless measurement can be done via Bluetooth with the Digi-Pas® Smart Levels App.

Easy self-calibration feature allows user to reset the digital level back to factory preset accuracy.

Functions:

- Single and Dual axis Mode – Dual axis mode via Digi-Pas Smart Levels App only.
- Instantly convert measurement unit from °(Degree) to %slope, mm/M & in/Ft
- Alternate Zero - reference angle can be set using alternate zero feature
- Hold function

Specifications:

- Measurement Range: 360° (4 x 90°) for X-axis (SINGLE axis); 0 ~ 5° for X&Y (DUAL Axis)
- Accuracy: $\pm 0.1^\circ$ at $0^\circ \sim 1^\circ$ & $\pm 0.2^\circ$ at $1^\circ \sim 89^\circ$
- Resolution: $\pm 0.05^\circ$ at $0^\circ \sim 1^\circ$ & 0.1° at other angles
- Wireless measurements using Digi-Pas® Smart Levels App; Bluetooth range approx. 15m
- Power: Two AAA 1.5 volt batteries
- Display: LED
- Dimensions: 58 x 62,5 x 37,5 mm
- Weight: 90 grams
- Warranty: 1 years

Includes:

- User's Guide
- 2 AAA batteries
- 1-year warranty
- Protective pouch with belt loop
